

Compensation Plan

Effective November 1, ~~2019~~2020

Executive Summary

Purpose

The purpose of the Compensation Plan is to define the philosophy of compensation in the City of Smithville for regular employees, and to specifically define how compensation increases for various job classifications are determined, in accordance with Article 6 of the Employee Handbook. In order to attract and retain qualified personnel at all levels of the organization, it is the policy of the City of Smithville to maintain fair and competitive salary ranges consistent with the economic constraint of the City and the labor market in which we compete.

Effective Date

This compensation plan is effective November 1, ~~2019~~2020. It will remain in effect until such time a subsequent compensation plan supersedes it.

Industry Comparison

As stated in the purpose, it is the policy of the City of Smithville to maintain fair and competitive salary ranges consistent with the economic constraints of the City and the labor market in which we compete to attract and retain qualified personnel at all levels of the organization. As such, the City participates in an annual salary survey coordinated by Mid America Regional Council (MARC). The industry comparison figures on the pay scale summary page are the median salary for each position of comparable municipalities in the Kansas City area that also participate in the annual salary survey.

Cost of Living Allocations

It is the intent of the City of Smithville to provide cost of living adjustments to the pay scale by the rate of the yearly increase in the consumer price index, subject to the discretion of the Board of Aldermen. For the purposes of this section, "consumer price index" means, for any fiscal year, the previous year's total consumer price index from July 1 through June 30, using the official current base, compiled by the bureau of labor statistics, United States department of labor for all urban consumers (CPI-U) for the Midwest Region. The Consumer Price Index for the period of July 1, ~~2018-2019~~ through June 30, ~~2019-2020~~ was ~~1.30.4~~%. The ~~2019-2020-2020~~ 2021 compensation plan reflects a ~~1.30~~% cost of living adjustment to the pay ranges.

~~Employees whose rates fell below the minimum of the adjusted ranges will receive an increase to the new minimum. All other employees will be subject to merit increases but will not receive Cost of Living increases as in prior years.~~

Merit Increases

It is the intent of the City of Smithville to ~~move to provide compensation based on~~ a merit-based system with salary increases occurring consistent with successful performance reviews. The ~~2019-2020-2020-2021~~ budget includes a recommended 3% merit pool which will be allocated to employees based on individual performance reviews.

Off Duty Secondary Employment of Police Officers

Pursuant to 29 CFR § 553.227 Outside employment, Police Officers may, at their own option, perform special duty work in law enforcement or related activities for a separate and independent employer during their off-duty hours. The hours of work for the separate and independent employer are not combined with the hours worked for the primary public agency employer for purposes of overtime compensation. The City of Smithville shall facilitate the employment of such employees. The City of Smithville shall receive their pay for the special details through the City's payroll system. The rate at which Police Officers shall be paid by the City's payroll system for the purposes of this compensation plan shall be \$35.00 per hour, for a minimum of ~~two (2)~~four (4) hours.
