FINDING OF FACTS AND CONCLUSIONS OF LAW

Applicant: Port Side Tie, LLC

Land Use Proposed: R-3

Zoning: R-1B and B-2

Property Location: 16000 and 16100 N. 169 Hwy

Pursuant to the provisions of Section 400.560(C) of the Smithville Code, the Planning Commission does hereby make the following findings of fact based upon the testimony and evidence presented in a public hearing of the Planning and Zoning Commission of the City of Smithville, held on February 13, 2024, and presents these findings to the Board of Aldermen, with its' recommendations on the application.

Finding of Facts

1. Character of the neighborhood.

The surrounding area is 169 Highway frontage with commercial uses throughout and Second Creek to the west. West of the creek is land not within the city limits that is used as agricultural land.

2. Consistency with the City's Comprehensive Plan and ordinances.

The existing Comprehensive Plan was approved on November 10, 2020, and calls for the north lot to be part of the Downtown overlay area, and the south lot is just left as agricultural.

3. Adequacy of public utilities and other needed public services.

Streets and Sidewalks:

No street extensions will be needed, but Cliff Dr. will need to be upgraded when the south lot develops, including sidewalks at the owners' expense and in accordance with existing APWA standards.

Water, Sewer, and Storm water

The city does not have water or sewer at the lots, so the owner must extend both water and sewer to service the lots at its' own expense and in accordance with existing APWA standards.

All other utilities

Future Development will be conditioned upon installation of all other needed utilities at the cost of the development.

4. *Suitability of the uses to which the property has been restricted under its existing zoning.*

The current use is vacant land. The location, size and layout of the lots limit their use to anything other than limited multifamily, which is the highest and best use.

5. *Length of time the property has remained vacant as zoned.*

The property was zoned to its' existing district classification at least 1978 and has not been developed since.

6. *Compatibility of the proposed district classification with nearby properties.*

The proposed district is compatible with the business uses nearby.

7. *The extent to which the zoning amendment may detrimentally affect nearby property.*

No detriment is anticipated.

8. *Whether the proposed amendment provides a disproportionately great loss to the individual landowners nearby relative to the public gain.*

No loss to landowners is expected.

9. That in rendering this Finding of Fact, testimony at the public hearing on February 13, 2024, has been taken into consideration as well as the documents provided.

Recommendation of the Planning Commission

Based on the foregoing findings of fact, we conclude that:

A. This application and the Rezoning of this property from R-1B and B-2 to R-3 is governed by Section 400.620 of the zoning ordinance of Smithville, Missouri.

B. The proposed zoning is compatible with the factors set out in Section 400.560(C) of the zoning ordinance.
