

## Capital Improvement Plan Projects 2022 – 2026

<b>Project Name:</b> <b>4<sup>th</sup> Street Terrace Road Repairs</b> <b>(Following Utility improvements)</b>	<b>Department:</b> <b>Public Works - Streets</b>
<b>Type of Project:</b> <b>Rehabilitation/Replacement</b>	<b>Contact:</b> <b>Charles Soules</b>
<b>Total Project Cost:</b> <b>\$100,000</b>	

### Description:

After the water line on 4<sup>th</sup> Street is replaced, the City will need to reconstruct the road. The road is 24 feet wide and 425 feet long and the road will need 6" of asphalt (which is approximately 367 tons in weight).

### Justification:

There will be utility improvements occurring on 4<sup>th</sup> Street Terrace. The new waterlines will be constructed underneath the street. After the utility improvements are completed, the road will be reconstructed.

### Planned Expenditures

Phase	FY 2022
Engineering	TBD
Construction	TBD
Total	\$100,000

### Funding Sources

Fund	FY 2022
Transportation Sales Tax	\$100,000

### Progress of this Project (**Current Phase**)
