

# Commitment to Excellence

## Pillars of Excellence

Smithville has adopted six pillars of excellence as the foundation for its vision for a thriving city. The six pillars – Growth, Governance, Community Life, Finance, Infrastructure and Community Engagement – are a visible testament to our commitment in making Smithville a community that embrace growth, encourage commerce, respect its past and cultivate its natural surroundings.

**Growth** — We nurture a thriving economy by attracting and maintaining diverse development.

**Governance** — We act as a cohesive team, providing the human and physical resources to advance the goals and the betterment of the community.

**Community Life** — We provide an environment where all can experience safety, security and opportunity for an active, healthy lifestyle.

**Finance** — We maintain public trust through fiscally sound investment of public revenues and resources.

**Infrastructure** — We envision, build, and maintain the necessary road, utilities and strategic land use to prepare for residential and economic growth.

**Community Engagement** — We seek input, partner with our community, and encourage active participation in creating our future.
